CRISIS AND RISKS ENGINEERI® FOR TRANSPORT SERVIC

Project acronym: CRENG Priority: Transport Services

Project duration: 15 November 2018 – 14 November 2021 Grant holder: Warsaw University of Technology, Poland

Project goals:

To support the development of Crisis and Risks Engineering for transport services (CRENG) to ensu sustainability of Ukraine (UA), Azerbaijan (AZ) and Turkmenistan (TM) transport systems for the integration into Global transportation network. To contribute CRENG development in PCs the project v create the environment for education of high skilled specialists in line with labor market and according EU best practices and Bologna process.

Project objectives:

- to develop, implement and accredit new practice oriented, student-focused MA program "CRENG including innovative teaching and learning approaches and ECTS in UA, AZ and TM;
- to bring the Higher education institutions (HEIs) in UA, AZ and TM closer to labor market in CRENG area;
- to increase collaboration between EU and UA, AZ and TM HEIs in CRENG area

Project activities:

- Development of new, updating current curricula of new MA program "CRENG
- Retraining of academic teachers from PCs universities in EU on new curricula methodology of MA program "CRENG";
- Creation in PCs universities of teaching and learning environment incl. learning and teaching materials, e-learning courses on MOODLE platform, CRENG laboratories and virtual class-rooms;
- Implementation and accreditation of new MA program "CRENG" in 9 PCs universities
- Implementation of "Skills Wallet": development of guidelines and holding on-line master classes for academic teachers on "Skills Wallet" implementation;
- Implementation of International Projects Based Learning: development of guidelines and holding retraining courses for academic teachers from PCs universities in EU;
- Pilot teaching of students from PCs universities on new MA program "CRENG";
- Dissemination & Sustainability Strategy development and implementation incl. creation of CRENG service offices network and web-based platform.

Partners:

2 universities from UKRAINE, AZERBAUAN, TURKMENISTAN, FRANCE, GERMANY, 2 Ministries o Education of CENTRAL ASIA countries, Baku Transport Agency, The Ukrainian Railway (Ukraijznytsia), ECN

ERASMUS+ Project: Crisis and Risks Engineering for Transport Services / CRENG 598218-EPP-1-2018-1-PL-EPPKA2-CBHE-JP

MINUTES

of the "THE KICK-OFF CONFERENCE Warsaw, February 27-28, IUHD, March 5

Meeting was lead by:

Maral Meredova, head of work group Aysenem Agabayeva, head of work group Saparmyrat Anamadov, member of workgroup

Guests:

Over 10 members representing all faculties and administration of the University took part in the meeting.

1. Develop internal plan of activities to meet the project's objectives (based on the project's work plan) till April 15, 2019.

- 2. Establish a working group (min. 5 persons) of the project and appoint responsible persons for each Work package implementation. Send a scan of the adopted plan approved by the target university's rector/vice rector until April 15, 2019 to e-mail: polupanova.pstu@gmail.com and jlbulgakova@gmail.com with CC to kle@wt.pw.edu.pl
- 3. Compose a list of the departments involved into the project. Compose a list of stakeholders involved in project activities.
- 4. Develop criteria for the selection of teachers for internships in European universities till April 15, 2019.

INTERNATIONAL UNIVERSITY FOR THE HUMANITIES AND DEVELOPMENT

Extract from order number 70-Ö

"22" 08 2019

- Ashgabat city
- In order to improve the master's curriculum and teaching methods at the university

I give an order:

1. In connection with the European Union's ERASMUS+ program under the number 598218-EPP-1-PL-EPPKA2-CBHE-JP, in the framework of the "Crisis and Risk Engineering for Transport Services" (CRENG) project program, to enter new disciplines, to create educational and practical classrooms (laboratories) equipped with innovative technologies, for the implementation of the project to create a working group to improve the curriculum and teaching methods.

Criteria for teacher selection for trainings

INTERNATIONAL UNIVERSITY FOR THE HUMANITIES AND DEVELOPMENT

Selection Criteria to Participate in CRENG Project

- 1. The age of participant is not more than 40.
- 2. Participant's experience in teaching not less 2 years.
- 3. Teaching experience at IUHD not less 2 years.
- 4. Intermediate level of English.
- 5. Participant's own plan for future improvement.
- 6. Participant's teaching courses relating with the Project's objectives.
- Degree of participant's education Master, Specialist diploma or Master Program student (attender).

IUHD

Teacher that will develop new courses

#	Name, Surname, email	Position in the university	Responsibilities (Work Packages tasks according to the Work Plan)
1	Sulgun Annagurbanova	Head of Computer Technologies and Systems Department	Updating programs and courses, development digital versions-drafts (.doc files) of manuals/text books/methodological recommendations for students and teachers, creation e-learning course and updating it to the MOODLE platform
2	Ayna Mametsaliyeva	Instructor, International Management Department	Development digital versions-drafts (.doc files) of manuals/text books/methodological recommendations for students and teachers, development and implementation of courses
3	Guvanch Gylychdurdiyev	Head of International Economics Department	Teaching/training assignment, development digital versions-drafts (.doc files) of manuals/text books/methodological recommendations for students and teachers, creation e-learning course and updating it to the MOODLE platform
4	Habib Halmamedov	Instructor, Social Sciences Department	Teaching/training assignment, development digital versions-drafts (.doc files) of manuals/text books/methodological recommendations for students and teachers, creation e-learning course and updating it to the MOODLE platform
5	Tirkish Ovezov	Instructor, Exact and Natural Sciences Department	Teaching/training assignment, practical placements in companies. industries and institutions, coordination with national stakeholders

Equipment & Software

1	Rahman Rahmanov	Instructor, Computer Technologies and Systems Department	Development digital versions- drafts (.doc files) of manuals/text books/methodological recommendations for students and teachers, creation e-learning course, responsible for the university equipment
2	Jahangir Ashyrbayev	Instructor, Computer Technologies and Systems Department	Development digital versions-drafts (.doc files) of their OWN manuals/text books/methodological recommendations for students and teachers. Responsible for the equipment

Current Courses

Some topics are included in some disciplines, for example, "Risks in the transport service", "Insurance issues", "Management". We plan to develop a work program for MBA undergraduates, including management issues in transport companies. Also in the work program of the discipline "Economy of Turkmenistan" there is a topic on transport logistics, general issues and specifically in the conditions of our transport (logistics) system.

Dissemination plan

"Crisis and Risks Engineering for Transport Services (CRENG)" Erasmus + K2 project for the first project year from 15.11.2018 to 15.11.2019

The plan is based on the overall strategy for disseminating and implementing the results of the "CRENG" Erasmus+ KA2 project by the project team of International University for the Humanities and Development, approved at the first coordination meeting in Poland, to provide a link between the three components of the strategy: "Target Groups", "Communication Channels" and "Events".

Plan

- October 2019 video-conference for instructors from other Universities (Institute of Economics and Management, Institute of Engineering, Technical and Transport Communications, Institute of Telecommunications and Informatics)
- 2. November 2019 –training for the instructors of IUHD (result of the training in Berlin)
- 3. December 2019, meeting, 1st year results and plan for the next year

In October, 17, 2019 members of IUHD working group initiated dissemination teleconference for teaching staff of Turkmen CRENG partners. The national coordinator of Erasmus+ office participated in this event. The event was translated over TV-4 program of Turkmenistan.

Time	Venue: IUHD (room 127)
15.00 - 15.05	Opening Remarks Maral Meredova, Akmaya Babamyradova (IUHD)
15.05 – 15.20	The Implementation of the Project Sapargul Valiyeva (Institute of Telecommunications and Informatics of Turkmenistan) Maksat Bendow (Turkmen State Institute of Architecture and Construction)
15.20 – 15.45	General Information about the Courses and Syllabi Rahman Rahmanov, Ayna Mametsaliyeva
15.45 – 16.10	New Technologies and Big Data for Innovations in Crisis and Risk Management Rahman Rahmanov
16.10 – 16.35	Human Factors in Design & Operations, Supply Chain Management and Networks Ayna Mametsaliyeva
16.35 – 17.00	Discussion. Further Implementation of the Project.

Project goals

To support the development of Crisis and Risks Engineering for transport services (CRENG) to ensure sustainability of Ukraine (UA), Azerbaijan (AZ) and Turkmenistan (TM) transport systems for their integration into Global transportation network. To contribute CRENG development in PCs the project will create the environment for education of high skilled specialists in line with labor market and according to EU best practices and Bologna process.

Project objectives

 to develop, implement and accredit new practice oriented, student-focused MA program "CRENG" including innovative teaching and learning approaches and ECTS in UA, AZ and TM;

to bring the Higher education institutions (HEIs) in UA, AZ and TM closer to labor market in CRENG area; • to increase collaboration between EU and UA, AZ and TM HEIs in CRENG area.

Project activities

- Development of new, updating current curricula of new MA program "CRENG";
- Retraining of academic teachers from PCs universities in EU on new curricula methodology of MA program "CRENG";
- Creation in PCs universities of teaching and learning environment incl. learning and teaching materials, elearning courses on MOODLE platform, CRENG laboratories and virtual class-rooms;
- Implementation and accreditation of new MA program "CRENG" in 9 PCs universities;
- Implementation of "Skills Wallet": development of guidelines and holding on-line master classes for

Implementation and accreditation of new MA program "CRENG" in 9 PCs universities;

ACADEMI

 Implementation of "Skills Wallet": development of guidelines and holding on-line master classes for academic teachers on "Skills Wallet" implementation;

- Implementation of International Projects Based Learning: development of guidelines and holding retraining courses for academic teachers from PCs universities in EU;
- Pilot teaching of students from PCs universities on new MA program "CRENG";
- Dissemination & Sustainability Strategy development and implementation incl. creation of CRENG service offices network and web-based platform.

THE PURPOSE OF THIS QUESTIONNAIRE IS TO EVALUATE THE SATISFACTION OF THE PARTICIPANTS BY THE COMPLETION OF THE COURSE AND TO HEAR THEIR SUGGESTIONS FOR IMPROVEMENT

I. TQA QUESTIONNAIRES FOR PARTICIPANTS / STUDENTS

I. STUDY COURSE / TRAINING EVALUATION

Please, complete this evaluation form. Thank you for help.

Course / Training title:

Course / Training start and completion date:

1. Please, indicate the following:

Field of your work

b. Length of your working experience:

less than 1 year □

1-5 years □ □ more than 5 years □

2. The most advanced level of education you have reached:

Secondary education

Higher education □

Academic education

3. How well have you been informed on forehand about the course?

This questionnaire is for participants of the training, but can also be provided to the trainers in order to check for themselves how they have used the environment and training methods

II. EVALUATION OF THE LEARNING ENVIRONMENT AND LEARNING CONDITIONS.

Name of the Course/ Training:

.,

Please, indicate your level of agreement by marking the respective number with a cross: <u>5 - on excellent level / 4 - in good way / 3 - average / 2 - poor / 1 - very poor/</u> <u>0 - not applicable to this course / training</u>

	1. Did the learning environment encourage your active	e par	ticipa	ation	?		
1.1	Did the general learning atmosphere in the classroom encourage	5	4	3	2	1	0
	interaction (the arrangement of chairs, tables and other teaching						
	equipment in the classroom)?						
2.	Did the audio-visual aids used within the course / training	enco	urag	e pai	rticip	ation	1?
2.1.	Did the teachers use PPT presentation?	5	4	3	2	1	0
2.2.	Did the teachers use audio and video information?	5	4	3	2	1	0
2.3.	Did the teachers use and present Internet resources related to the	5	4	3	2	1	0
	training course / training?						
3.	Did the atmosphere of the learning environment encourage YC)U to	PAR	TIC	PAT	Eat	the
	training?						
3.1	Were warm-up activities or "ice breakers" needed to put you at	5	4	3	2	1	0
	ease?						
3.2	Did trainers allow participants to say things in their own words?	5	4	3	2	1	0
3.3	Where participants encouraged to listen carefully to each other?	5	4	3	2	1	0
3.3	Where they encouraged to respect different points of view?	5	4	3	2	1	0

III. EVALUATION PROVIDED BY FACULTY / TEACHING STAFF

Please, within appropriate spaces provided below indicate your opinion by marking the respective number with a cross or ring:

4 - yes / 3 - more or less / 2 - no / 1 - not applicable

Also, please provide the answers for the open-questions indicated within the table below.

	CURRICULUM / TRAINING				
1.	Is the course of study described in terms of course OBJECTIVES AND content?	4	3	2	1
2.	Are the applied teaching methods within the course / training USED TO GET A MAXIMUM OF TRAINING RESULTS	4	3	2	1
3.					
	HAVE THE STAKEHOLDERS SUCH AS MANAGERS OF THE PARTICPANTS BEEN CONSULTED WHEN DESGNING THE COURSE.	4	3	2	1
4.	PARTICPANTS BEEN CONSULTED WHEN DESGNING THE	4	3	2	1

In total, the survey involved all employees of the faculty of International Economics and Management, and Information Technology, that is 30 teachers.

Based on this seminar's results work group members developed the questionnaire which is aimed at identifying teachers with existing knowledge about the project, obtaining data on teachers' desires to participate in this project.

Carrying out laboratory classes in an automated form will be much easier, since the human factor is excluded when compiling reports, all measurement results are displayed on the screen and can be easily imported into computer programs for further processing.

QUALITY ASSURANCE PLAN

"Crisis and Risks Engineering for Transport Services (CRENG)" Erasmus + K2 project for the first project year from 15.11.2018 to 14.11.2021

The plan is based on the overall CRENG Quality Assurance Strategy and

the recommendations approved at the first coordination meeting to provide

communication between the three components of the strategy: "target groups", "communication channels" and "activities"

Quality Assurance Plan/ Quality Group

QUESTIONNAIRE FOR ORGANIZATIONS / DEPARTMENTS / COMPANIES

Issues included:

general competencies, specific, managerial and leadership competencies

University Document:

general competencies, professional competencies and pedagogical skills

The structure of the training material:

- breakdown of the purpose and tasks of the lesson into components
- Presentability of the training material
- Knowledge of educational material, sequence of presentation of the main issues of the topic
- The relationship of this topic with topics of past classes

- Examples (Turkmen data)
- Interdisciplinary communication
- The relationship of theoretical material with practical

IUHD

- Monitoring the level of assimilation of material
- Willingness and ability to answer questions
- Handout availability
- Summarizing the lesson. Homework

- Audience management, ability to keep listeners' attention
- Use of non-traditional forms of employment (work in small groups, etc.)
- Creating a problematic situation for the development of students' creative / analytical abilities
- Orientation sessions on the listener
- Time management

Did the participants have any obstacles to putting the learning outcomes into practice?	
Does the graduate apply updated knowledge in his work?	Does the teacher apply updated knowledge in his work?

Has the work of a trained specialist improved after the completion of the curriculum?	Has the quality of the lesson improved after the teacher completed the training program?	
	If so, in what way is it manifested?	
Если нет, что, по Вашему мнению, может сделать программа обучения, чтобы обеспечить лучшую работу обученного специалиста?	If not, give recommendations on quality assurance. If not, what, in your opinion, can a training program do to ensure the best work of a trained specialist?	IUHD

- Test tasks development and students knowledge assessment system
- Scientific and methodological activities of the teacher
- Teacher self-esteem

FEEDBACK

- Course Evaluation
- Assessment of the quality of teaching by students

Training courses for "Crisis and risk engineering for transport services at Technical University of Berlin, 09/09/2019-20/09/2019

Was prepared a questionnaire for the participants of the training, based on the courses taken by trainers from 9/9/2019 to 20/9/2019. Also was prepared the remaining handout resources, such as training agendas plan, attendance sheet.

«Ulag hyzmatlarynda krizisleri we töwekgilçilikleri dolandyrmak» (CRENG) atly taslamasy

Project activities

IUHD meeting on participants' selection for CRENG trainings on 9/09/2019-20/09/2019

Meeting was lead by:

Maral Meredova, head of the work group Jumamyradov Yagmyr, member of the work group Rahmanov Rahman, member of the workgroup Mametsaliyeva Ayna,

Guests:

Over 20 members representing all faculties and administration of the University took part in the meeting.

Project activities

The meeting on teachers' selection for trainings at EU universities in the framework of CRENG was held at the Exact and Natural Sciences Department of IUHD. Academic staff of the Information Technologies faculty and International Economics and Management Faculty of IUHD were participants of the selection procedure for CRENG trainings. At the meeting, Maral Meredova, the head of work group, and Yagmyr Jumamyradov, introduced to teachers the project's section criteria, requirements and responsibility of the participants of the trainings.

Objectives: Implementation of "Skills Wallet": development of guidelines and holding on-line master classes for academic teachers on "Skills Wallet" implementation;

IUHD

Project activities

The meeting on teachers' selection for trainings at EU universities in the framework of CRENG was held at the Exact and Natural Sciences Department of IUHD.

Academic staff of the Information Technology Faculty and International Economics and Management Faculty of IUHD were participants of the selection procedure for CRENG trainings. At the meeting, Maral Meredova, the head of work group, the Dean of the Information Technologies Faculty and Yagmyr Jumamyradov, the head of work group, the Head of the International Management Department, introduced to teachers of the Departments of Exact and Natural Sciences, of International Economics, of Finance, of International Management, of Computer Technologies and Systems, of Modern Computer Technologies the project's section criteria, requirements and responsibility of the participants of the trainings.

Training courses for "Crisis and risk engineering for transport services at Technical University of Berlin, 09/09/2019-20/09/2019

Training for the instructors of IUHD (result of the training in Berlin) A teleconference was held between instructors from other Universities (Institute of Economics and Management, Institute of Engineering, Technical and Transport Communications, Institute of Telecommunications and Informatics).

From the International University for the Humanities and Development participated in the trainings Rahman Rahmanov – Deputy–dean of Information Technologies Faculty, group member Instructor of Computer technologies and Department, Ayna Mametsaliyeva – Head of Finance Department, group member.

IUHD

Training courses for "Crisis and risk engineering for transport services at Technical University of Berlin, 09/09/2019-20/09/2019

The program of the visit included the training courses given below on the development of innovative curricular for the purpose of their further adaptation and implementation into the educational process at the IUHD:

New technologies and big data for innovations in crisis and risk management + IT Security; Informational-Analytic and Diagnostics for Sociotechnical System; New challenges for crisis and risk management in logistics systems; Humanitarian logistics and transport services in disasters conditions.

Training courses for "Crisis and risk engineering for transport services at Technical University of Berlin, 09/09/2019-20/09/2019

A teleconference was held between instructors from other Universities (Institute of Economics and Management, Institute of Engineering, Technical and Transport Communications, Institute of Telecommunications and Informatics).

As a result of the trainings, IUHD teachers will start to develop educational and methodological materials for the implementation of innovative curricular into the educational process at "IUHD" for Bachelor's and Master's degree according the requirements of "CRENG" project.

Traditional dissemination

Participants of the project produce the set of traditional promotional materials, it publish major results in media (general public GROUP meeting on "Training courses for "Crisis and risk engineering for transport services at Technical University of Berlin, 09/09/2019-20/09/2019) and professional journals (academic community) and/ or conference presentations / posters. Additionally, the project will organize several briefing meetings with policy making stakeholders to enable a multiplier effect.

As a result of the trainings, Ayna Mammetsaliyeva and Rahman Rahmanov held a meeting at IUHD, in which Faculty members of the University actively participated. They discussed ways of developing educational and methodological materials for the implementation of innovative curricular into the educational process at IUHD for Bachelor's and Master's degree according the requirements of "CRENG" project.

Dissemination in a public newspaper

As a result of second training held between November 25 and December 6 under the framework of CRENG project, retraining was carried out at International University for the Humanities and Development and target audiences were selected as university instructors as well as MBA students of the university. Additionally, TV shooting was organized at a national level and interviews were given on the objectives of the CRENG project. First speaker Habib Haldurdyyev has demonstrated purpose of the CRENG modules and implementation of the

courses at a national level.

Preparation of article for newspaper. Participants are planning to write an article to newspaper about Crisis and Risks Engineering for transport Services during February-March of 2020. Instructors discussed about idea of writing the article related with Diplomacy and Transport services.
